

Binary Tree Corporate Overview

Powering Enterprise Transformations

At Binary Tree, we power enterprise transformations. Our award-winning software and services help Enterprise businesses modernize their Microsoft email, directories and applications by moving and integrating them to the cloud. Binary Tree mitigates the risk of delays, downtime, and budget overruns for complex transformation projects for large organizations.

We understand Enterprise migration requirements that go well beyond the needs of small companies. Since 1993, we've transformed more than 8,000 global clients and 42 million users, including 7.5 million to Office 365. Our business first approach helps plan, move and manage the transformation process from end-to-end. So, clients stay focused on their core business while our experts deliver a low-risk, successful IT transformation.

Cloud Computing

Whether you're looking to migrate to Office 365 or between Office 365 tenants, our software and services can move your users, email, public folders, and applications. We can even help keep your users collaborating smoothly as you migrate.

IT Modernization

We can modernize and scale your IT systems to meet the evolving needs of your business. Our software and services can help upgrade your enterprise email, directories, and applications.

Mergers and Acquisitions

We can help you quickly consolidate your directories, email, and applications. This lets your teams find each other, send email, and schedule meetings. Our proven process and advanced migration software can guide you through a successful Day One—and beyond.

HOW WE HELP YOU PLAN. MOVE AND MANAGE YOUR TRANSFORMATION

Depth of Experts

We have migrations down to a science. Our experts can help you get ready for complex transformations that touch thousands of users.

Leading-Edge Solutions

Our award-winning suite of software and services help you modernize your technology securely and efficiently.

Business-First Approach

Stay focused on your core business while we manage your transformation at every step. We can plan your project, move your data, and even train your users.

Software Solutions

Binary Tree provides software-based solutions to assist customers to reduce the costs and timelines of their enterprise migrations while preventing interruptions to end-users.

Office 365 Tenant Integration and Migration

Binary Tree's **Power365®** is a Software-as-a-Service platform that makes it easy to unify and move users as well as mail, One Drive and SharePoint content between two or more Office 365 tenants to support mergers or long-term multi-tenant coexistence.

Directory Synchronization

Binary Tree's **Directory Sync Pro** makes it easy to establish and maintain bi-directional synchronization between distinct instances of Active Directory or between Active Directory and Domino Directory.

Active Directory Migration

Active Directory Migrator Pro dramatically reduces risks, complexity, time, and costs associated with transitions to your Active Directory infrastructure.

Exchange-to-Exchange Mail Migrations

Binary Tree provides the award-winning **Exchange Pro** software for migrating enterprises from legacy Exchange Server environments to Exchange 2016, Office 365, or hybrid deployments.

- Migrate Exchange mailboxes within forests, between forests and to Microsoft Office 365
- Migrate Exchange public folder content to modern public folders in Exchange 2016, 2013 and Office 365 and to Microsoft Office 365 Groups

Notes-to-Exchange Mail Migrations

Binary Tree provides the CMT suite of software for migrating from Notes to Exchange on-premises, Exchange Online in Microsoft Office 365, or to hybrid deployments.

- **Notes Integration | CMT:** Establish robust interoperability between Domino and Exchange
- **Notes Migrator | CMT:** High-performance mail and archive migration from Notes to Exchange
- **Notes Archive Migrator | CMT:** Convert local archives from NSFs to PSTs

Managed Services

Our **Surround365®** managed service unlocks the ROI from Office 365 with technical support, coaching, and training for your end-users and management, monitoring and reporting for your IT team.

Domino on Azure, a managed service, enables you to significantly reduce your costs to maintain a Domino infrastructure by moving your Domino servers to the Microsoft Azure Cloud.

Services and Support

Binary Tree provides services and support to assist customers to plan, move and manage their projects.

- **Migration Assessments**
- **Quick Starts**
- **Domino Application Services**
- **Migration-as-a-Service**
- **Product Support**
- **Advanced Consulting Services**
