

## Global Leader in Medical Testing Solutions Modernizes Workplace with Migration to Office 365

Werfen, a leader in In Vitro testing solutions moved to Office 365 for better collaboration and productivity

### CUSTOMER PROFILE

Werfen is a leading developer, manufacturer and distributor of *in vitro* testing solutions.

<b>Countries</b>	30
<b>Distribution Territories</b>	Over 100
<b>Employees</b>	Over 5,000

### THE SITUATION

In an effort to enhance the collaboration and productivity capabilities of their users, Werfen decided to make the leap from SmartCloud to the advanced capabilities of Microsoft Office 365.

### BENEFITS

- Users remained fully productive throughout project
- Customizing the move eased user transition
- Office 365 boosted collaboration and productivity

 **5,400** users migrated from SmartCloud to Microsoft Office 365

**Migrated from:**  
SmartCloud Notes

**Migrated to:**  
Microsoft Office 365

**Country:**  
Multinational based in Spain

**Industry:**  
Healthcare

“Binary Tree is the only solution that offers full coexistence and a customized migration between SmartCloud and Office 365.”

*Aleix Solà  
Systems & Cloud Computing Team  
Manager, ASM Web Services*

## THE CHALLENGE

Werfen is a long-time Notes and Domino customer that moved to SmartCloud a few years ago. While being in the cloud offered some benefits, Werfen wanted to provide its users with new collaboration and productivity capabilities. So, the company investigated Office 365 and decided to transition to the Microsoft cloud.

## THE SOLUTION

When Werfen needed guidance on the move from SmartCloud to Office 365, it brought in ASM Web Services which had originally helped Werfen transition from on-premises Notes to SmartCloud. To address Werfen’s concern that the migration might disrupt its users, ASM recommended the use of Binary Tree by Quest software.

The Binary Tree Integration by Quest for Notes software provided the rich coexistence between SmartCloud and Office 365 that Werfen was looking for to ensure their users could continue to collaborate regardless of their migration status. And ASM was able to customize Binary Tree Migrator by Quest for Notes to provide a transition that met Werfen’s specific requirements and environment.

## THE RESULTS

To date, about two-thirds of Werfen’s users have been successfully migrated from SmartCloud to Office 365 with the remaining users planned to be moved safely before SmartCloud reaches end-of-life in July 2020. Werfen’s internal training department is helping the migrated users to quickly become productive in the Microsoft cloud.

“Good planning, customization, scalability and performance are ensuring the success of the migration project at Werfen,” stated Aleix Solà, systems and cloud computing team manager at ASM Web Services.

## ABOUT ASM WEB SERVICES

We are an agile and innovative company, which has established itself as the technological ally for the development of software solutions tailored to the needs of our customers’ online business. ASM Web Services is based in Barcelona, Spain. For more information, visit [www.asmwms.com](http://www.asmwms.com).

## ABOUT QUEST

Quest creates software solutions that make the benefits of new technology real in an increasingly complex IT landscape. From database and systems management, to Active Directory and Office 365 management, and cyber security resilience, Quest helps customers solve their next IT challenge now. Quest Software. Where next meets now.
