

QUICK STARTS

POWERED BY BINARY TREE

Get a head start on Notes and Exchange migrations

Get a head start on your transformation using Quick Starts from Binary Tree. Quick Start services get you up and running with Binary Tree software, including Notes migrations using Notes Migrator | CMT, Notes archive migrations with Self-Service Archive Migrator | CMT, and Exchange migrations with Exchange Pro. Quick Starts give your teams the tools and skills they need to tackle your migration with ease.

Over 1-3 days, depending on the Quick Start, our migration experts can help you set up, configure, and test your migration environment. Along the way, they also share industry-proven guidance that's based on decades of experience. By the end of the Quick Start, your team will be ready for the migration, armed with best practices to solve even complex challenges. And you'll be well on your way to a successful migration that doesn't disrupt your organization.

Exchange Quick Start

Exchange Quick Start spans 2 days, to propel your migration to success. It helps get your Exchange migration environment and team up and running quickly with Binary Tree's Exchange Pro software.

After this Quick Start, you'll be ready for a migration that involves inter-org Exchange, or Exchange to Office 365.

Notes Quick Start

The three-day Notes Quick Start will help get your Domino-to-Exchange migration environment up and running quickly with Binary Tree's Notes Migrator | CMT software.

After this Quick Start, you can efficiently migrate from a legacy Domino environment to a new on-premises, online, or hybrid Exchange platform.

Self-Service Archives Quick Start

This one-day Quick Start will help prepare you for a fast, successful migration from Notes NSF archives to Outlook PST files – ensuring your end users can access their historical records, easily, after the migration.

After this Quick Start, you will know that your hardware and tested Self-Service Archive Migrator | CMT software is ready for a smooth, successful archive migration.
