Active Directory Pro facilitates the consolidation, merger and separation of Active Directory environments in a powerful, customizable solution.

Active Directory Pro lets you merge, consolidate, or restructure your Active Directory environment. It securely migrates objects, settings, and properties. You can use it to automate your migration while keeping your migrated and un-migrated users, devices, and applications in sync. Active Directory Pro lets you migrate during normal business hours—without interrupting your users. It’s simple to deploy with an intuitive user interface. It also helps shorten your project timeline and reduces error by automating complex tasks. And because you can customize it, Active Directory Pro efficiently migrates organizations of all sizes.
