

**MERGERS AND ACQUISITIONS GLOBAL ADDRESS LIST**  
POWERED BY BINARY TREE

# Create a Unified Global Address List between Merging Organizations

When you undergo a big organizational change like a merger or acquisition, you face both exciting and disruptive challenges. A primary goal for your IT teams is to minimize impacts and disruption for the overall productivity of both organizations. Providing a unified, cross-organizational Global Address List (GAL) is a critical first step to achieve a smooth transition. Binary Tree’s Directory Sync Pro provides a solution to quickly and easily establish a unified GAL, so your users can know with whom they can contact in the new organization, facilitating team-building and collaboration.

By creating a unified GAL in just ten easy steps, Directory Sync Pro lets your employees collaborate with new and old team members—without interruption—facilitating working relationships and a synergistic, productive, unified organization. Directory Sync Pro will enable coordination and integration from Day One as either self-service or, for a more full-service, stress-free approach to a smooth transformation, Binary Tree Services can perform all of tasks and testing necessary.

**M&A SOLUTIONS**

- > Create a unified organization with one common directory
- > Make a unified brand to build connections across the new organization
- > Same time by eliminating multiple directory searches
- > Achieve unification on Day One of a merger or acquisition

**DIRECTORY SYNC PRO**

- > Proven GAL history with many features and configurations
- > Flexible for complex enterprise systems; scalable for all organizations
- > Quickly resolve conflicts across users and distribution lists
- > Easily import values to customize its matching and mapping
- > Syncs and migrates passwords

## Fast Global Address List Setup

With the proven success of Directory Sync Pro, a quick and simple configuration helps you achieve a smooth organizational transformation.

## Unified Collaboration

A unified GAL enables collaboration between new and old teammates in the new organization. They can easily find any co-worker in the same directory.

## Uninterrupted Productivity

Establishing a GAL on Day One of a merger or acquisition helps limit interruptions to productivity across the organization. Employees can find peers faster focus on core business tasks.

## Reduced Frustration

With one common directory, users can quickly find contacts to reduce search times, quell frustration and limit calls to support or help desks.

## Proven Directory Sync Experience

Trusted by large enterprises, Directory Sync Pro is flexible and customizable to meet the configuration needs of even the most complex organizations.

## Facilitate Communication

Streamlined communication is a key to a successful migration during a merger or acquisition. Easily find coworkers for emails, Skype for Business calls, and more with Directory Sync Pro.

## Binary Tree Expertise

In over two decades serving all industries, Binary Tree has helped migrate over 35 million users, bringing trust in solutions that have been tested repeatedly in similar applications.

## Binary Tree Services

Let Binary Tree services perform a full-service solution, establishing a Global Address List using Directory Sync Pro, performing all testing and configuration for a low-stress experience.
