BINARY TREE®
Powering Enterprise Transformations®

Notes Migration Solutions

Binary Tree provides software and services to enable an efficient, effective Notes migration – either to Exchange or to Office 365 – that meets your schedule. You can migrate all at once, or even set up seamless integration to enable long-term, cross-environment collaboration.

Prepare for the Migration

Assess and Remediate Your Notes Environment
Binary Tree can provide an assessment of your messaging and directory infrastructures to check their health and get them ready to be migrated to the Microsoft platform.

Establish Coexistence to Sustain User Collaboration During the Migration

Enable Notes-to-Exchange Interoperability
The **Notes Integration CMT** software ensures the high-fidelity interchange of email, calendar entries, calendar free/busy availability, and mail-enabled applications to preserve the workflow of your users, regardless of their migration status from Domino to Exchange.

Migrate Mail and Mail Archives to Exchange or Office 365

Migrate Notes Mail to Exchange
Notes Migrator CMT is the most comprehensive software available for migrating from Lotus Notes/Domino on-premises or the IBM SmartCloud to Microsoft Office 365 and Exchange. Notes Migrator | CMT offers unmatched data fidelity, migration management, and migration throughout.

Migrate Notes Archives to Exchange
Binary Tree's **Notes Archive Migrator CMT** software simplifies the migration of local mail archives from Lotus Notes NSF files to Microsoft Outlook PST files. Notes Archive Migrator | CMT manages the migration notifications, tracking and processing for end users to seamlessly transition their local mail archives from Lotus Notes to Outlook.

Plan and Prepare for Migration
› Prepare your environment for integration and migration
› Establish interoperability so migrated and non-migrated users can continue to send emails, look up contacts in a common directory, and schedule and update meetings by checking the availability of their colleagues

Migrate Messaging and Applications
› Migrate Notes mail and archives to Exchange or Office 365
› Migrate Notes applications to SharePoint or Office 365

Manage User Adoption
› Supplement your help desk to support end-users through the transition
› Accelerate user adoption of Microsoft applications

Migrate Notes Applications to SharePoint or Office 365

Domino Solutions

Expert Analytics for Domino and **Migrator Pro for Domino** enable organizations to analyze Domino and SharePoint applications and migrate the content of Domino applications to SharePoint, Office 365, and other enterprise content repositories.

Domino Application Services

Our **Domino Application Services** create a clear and realistic approach for legacy application transformation. You will cut costs by enabling all legacy collaboration and communication applications to be evaluated and either retired or transformed to new platforms.

Relax and Leave the Migration to Us

Migration-as-a-Service

Migration-as-a-Service is a low-stress, full-service approach to migrations. You can stay focused on your core business while Binary Tree handles your migration from end to end. Binary Tree offers Migration-as-a-Service for any migrations that involve IBM Notes/Domino, SharePoint, Exchange, and Office 365.

Accelerate User Adoption

E-Learning

How can you ensure your team gets up to speed and stays there with Exchange or Office 365? Binary Tree e-Learning is here to guide you every step of the way and show your end-users the ropes. There's confidence that comes when end-users are able to adapt to new technology quickly and improve their knowledge base. No matter what their current skill level, they'll receive the support and tools they need to succeed.

"Binary Tree's software has been used to migrate millions of users from Notes to Microsoft Office 365 and has proven instrumental in the onboarding process."
