

Combine Day One Collaboration with a Unified Brand

Power365® Integration Pro delivers an automated email address rewrite service for a zero-touch, day-one collaboration experience without downtime. Ensure a unified brand identity through common email domains—on both inbound and outbound email—from different Office 365 tenants. Power365 Integration Pro can maintain existing email addresses throughout a migration or can even enable mailboxes to send as a new email domain before migration begins. You also get all features of Power365 Integration, for productive and efficient business from day one, including, unified address lists, and global access to calendar availability – in addition to Power365 Mail and Public Folder Migration for a complete migration solution.

Power365® Integration Pro delivers email address rewrite services, coexistence and migration for full tenant transformation.

MIGRATE
Move to Office 365

- > High-velocity migration of mail and archives between tenants
- > Migrate mail from on-premises and hosted Exchange to Office 365
- > Migrate Public Folder content
- > Optionally migrate OneDrive and SharePoint content

INTEGRATE
Synchronization and coexistence

- > Coexistence and unified GAL across divisions or organizations
- > Access to calendars and free/busy lookup for transparency and ease of scheduling
- > Synchronization between source and target mailboxes

TRANSFORM
Email address rewrite solutions

- > Share email domain names between tenants, from day one, on inbound and outbound mail
- > Select your preferred domain for sending and receiving – or even choose a new domain
- > Move domain name to a new tenant without downtime
