Binary Tree Corporate Overview

Powering Enterprise Transformations

At Binary Tree, we power enterprise transformations. Our award-winning software and services help Enterprise businesses modernize their Microsoft email, directories and applications by moving and integrating them to the cloud. Binary Tree mitigates the risk of delays, downtime, and budget overruns for complex transformation projects for large organizations.

We understand Enterprise migration requirements that go well beyond the needs of small companies. Since 1993, we've transformed more than 9,000 global clients and 46 million users, including 9.5 million to Office 365. Our business first approach helps plan, move and manage the transformation process from end-to-end. So, clients stay focused on their core business while our experts deliver a low-risk, successful IT transformation.

Cloud Computing

Whether you're looking to migrate to Office 365 or between Office 365 tenants, our software and services can move your users, email, public folders, and applications. We can even help keep your users collaborating smoothly as you migrate.

IT Modernization

We can modernize and scale your IT systems to meet the evolving needs of your business. Our software and services can help upgrade your enterprise email, directories, and applications.

Mergers and Acquisitions

We can help you quickly integrate your directories, email, and applications to enable user collaboration between the merging organizations on Day One. This lets your teams find each other, send email, and schedule meetings. And post-merger, we can help you to consolidate your directory, messaging and application environments.

HOW WE HELP YOU PLAN, MOVE AND MANAGE YOUR TRANSFORMATION
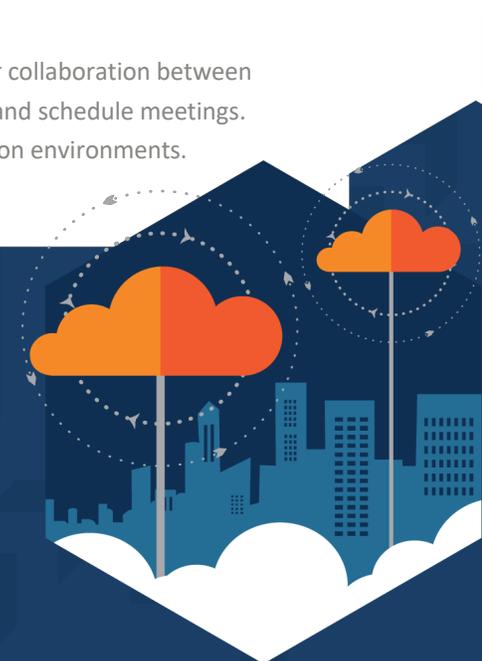

Depth of Experts

We have migrations down to a science. Our experts can help you get ready for complex transformations that touch thousands of users.

Leading-Edge Solutions

Our award-winning suite of software and services help you modernize your technology securely and efficiently.

Business-First Approach

Stay focused on your core business while we manage your transformation at every step. We can plan your project, move your data, and even train your users.

Software Solutions

Binary Tree provides software-based solutions to reduce the costs and timelines of enterprise migrations while preventing interruptions to end-users.

Office 365 Tenant Integration and Migration

Binary Tree's **Power365®** is a Software-as-a-Service platform that makes it easy to unify and move users as well as mail, One Drive and SharePoint content between two or more Office 365 tenants.

Directory Synchronization

Binary Tree's **Directory Sync Pro** and **Power365 Directory Sync** make it easy to establish and maintain synchronization between directory environments and Global Address Lists (GALs).

Active Directory Migration

Active Directory Pro dramatically reduces risks, complexity, time, and costs associated with transitions to your Active Directory infrastructure.

Exchange-to-Exchange Mail Migrations

Binary Tree provides the award-winning **Exchange Pro** software for migrating mail and public folders from legacy Exchange Server environments to Exchange 2016, Office 365, or hybrid deployments.

Notes-to-Exchange Mail Migrations

Binary Tree provides the CMT suite of software, **Notes Integration**, **Notes Migrator** and **Self-Service Archive Migrator**, for integrating and migrating between Notes to Exchange on-premises, Exchange Online in Microsoft Office 365, or to hybrid deployments.

Software Support

Binary Tree's professional customer support services give you the level of guidance you need to ensure you can successfully complete your migration journey. We provide complimentary standard and advanced support 24 hours a day, 7 days a week, 365 days a year.

Transformation Services

An **Assessment** from Binary Tree is a cost-effective way to check the health of your existing environment and get ready for an efficient transformation.

With **Migration-as-a-Service**, Binary Tree's migration experts handle your migration from start to finish, letting you focus on your business.

Domino Application Services creates a clear and realistic approach for legacy application transformation to drive savings and readiness for modern platforms.

Enterprise Mobility + Security Services provide a solution for keeping data safe but accessible to the appropriate parts of the workforce.

Managed Services

Domino on Azure enables you to significantly reduce your Domino infrastructure costs by moving your Domino servers to the Microsoft Azure Cloud.
