

Grow Your Business in the Binary Tree Partner Program

Leverage the Growth of Projects in Cloud Computing, IT Modernization, and Mergers and Acquisitions

Integrators that perform enterprise transformations related to migrating to the Microsoft Office 365 cloud, modernizing Microsoft platforms, and for performing merger integration projects are realizing rapid growth.

Microsoft now boasts over 120 million commercial users in the Office 365 cloud and is expecting rapid cloud adoption for the foreseeable future. The merger and acquisition (M&A) market is also booming and a recent report from Deloitte predicted an acceleration of merger and acquisition activity in 2018.

Count on a Partner with Software Proven in the Largest and Most Complex Projects in the World

Binary Tree's software powers enterprise transformations. Our award-winning products will arm you with the power to transform the cloud computing, IT modernization and M&A initiatives of your clients.

Our software mitigates the risk of delays, downtime, and budget overruns for complex messaging and directory transformation projects for large organizations. Since 1993, our software has helped to transform more than 8,000 global clients and 42 million users, including 7.5 million to Office 365.
