Microsoft Office 365 Migration Solutions

Migrate to Office 365

Prepare Your Messaging and Directories for the Migration

Binary Tree can assess and remediate your messaging and directory infrastructures, as well as merge multiple directory domains into a consolidated domain, to mitigate the risk of project delays and user downtime when you integrate with, and migrate to, Office 365.

Enable Directory Interoperability

If you have multiple Active Directory forests that need to be integrated with Office 365, Binary Tree's **Directory Sync Pro** software can keep them synchronized to your on-premises domain that will be integrated with Azure Active Directory in Office 365.

Enable Notes-to-Office 365 User Interoperability

If you will be migrating users from Notes to Office 365, our **Notes Integration | CMT** software ensures the high-fidelity interchange of email, calendar entries, calendar free/busy availability, and mail-enabled applications to preserve workflow between migrated users and users waiting to be migrated.

Automate Mail Migrations from Exchange to Office 365

The advanced automation capabilities in our **Exchange Pro** software streamlines the data collection, scheduling, forecasting, processing, reporting, and user communication processes for Exchange mailbox and public folder migrations to Microsoft Office 365. In addition, Exchange Pro can migrate public folder data to Office 365 Groups.

Migrate Notes Mail to Office 365

Notes Migrator | CMT is the most comprehensive software available for migrating from IBM/Lotus Notes to Microsoft Office 365. Notes Migrator | CMT offers unmatched data fidelity, migration management, and migration throughout.
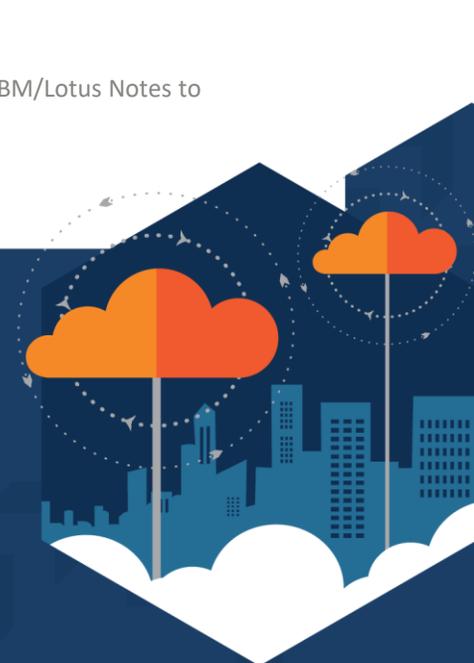

Migrate to Office 365

〉 Assess and remediate your source platform before your migration

〉 Establish user interoperability between the platforms

〉 Migrate users, mail, mail archives and public folders to Office 365

〉 Migrate Notes applications to SharePoint in Office 365

Migrate between Office 365 Tenants

〉 Assess and remediate your AD environment prior to migration

〉 Establish user interoperability between Office 365 tenants

〉 Enable users in each tenant to share the same email domain

〉 Migrate mail, mail archives and public folders between tenants

Move Notes Archives to Office 365

Binary Tree's **Notes Archive Migrator | CMT** software simplifies the migration of local mail archives from Notes NSF files to Outlook PST files. Notes Archive Migrator | CMT manages the migration notifications, tracking and processing for end users to seamlessly transition their local mail archives.

Application Modernization

Our **Application Modernization** services create a clear and realistic approach for legacy application transformation. You will save time and money—not to mention gaining a more efficient migration—by enabling all collaboration and communication applications to be evaluated and transformed, where applicable, to the new platform.

Migration-as-a-Service

Migration-as-a-Service is a low-stress, full-service approach to migrations. You can stay focused on your core business while Binary Tree handles your migration from end to end. Binary Tree offers Migration-as-a-Service for any migrations that involve IBM/Lotus Notes/Domino, SharePoint, Exchange, and Office 365.

Migrate Between Office 365 Tenants

Power365®

Binary Tree's **Power365®** is a Software-as-a-Service platform that makes it easy to unify and move users between two or more Office 365 tenants to support mergers or long-term multi-tenant coexistence.

Power365 enables…

- A Unified Email Domain
- A Unified Global Address List
- Unified Calendar Lookups
- High-Velocity Mail Migration

Accelerate User Adoption with Office 365 Managed Services

Surround365®

Binary Tree's **Surround365** managed service unlocks the ROI from Office 365 with technical support, coaching, and training for your end-users and management, monitoring and reporting for your IT team.

"Binary Tree's software has been used to migrate millions of users from Lotus Notes to Microsoft Office 365 and has proven instrumental in the onboarding process."

– General Manager, Microsoft Office 365
