Migrate from Notes to Microsoft

Prepare for the Migration

Assess and Remediate Your Notes Environment

Binary Tree can provide an assessment of your messaging and directory infrastructures to check their health and get them ready to be migrated to the Microsoft platform. Assessments are remotely-delivered, fixed-fee services.

Establish Coexistence to Sustain User Collaboration through the Migration

Enable Notes-to-Exchange Interoperability

The Notes Integration | CMT software ensures the high-fidelity interchange of email, calendar entries, calendar free/busy availability, and mail-enabled applications to preserve the workflow of your users, regardless of their migration status from Domino to Exchange.

Migrate Mail and Mail Archives to Exchange or Office 365

Migrate Notes Mail to Exchange

Notes Migrator | CMT is the most comprehensive software available for migrating from Lotus Notes/Domino to Microsoft Office 365 and Exchange 2013. Notes Migrator | CMT offers unmatched data fidelity, migration management, and migration throughout.

Move Notes Archives to Exchange

Binary Tree's Notes Archive Migrator | CMT software simplifies the migration of local mail archives from Lotus Notes NSF files to Microsoft Outlook PST files. Notes Archive Migrator | CMT manages the migration notifications, tracking and processing for end users to seamlessly transition their local mail archives from Lotus Notes to Outlook.

Plan and Prepare for Migration

〉 Prepare your environment for integration and migration

〉 Establish interoperability so migrated and non-migrated users can continue to send emails, look up contacts in a common directory, and schedule and update meetings by checking the availability of their colleagues

Migrate Messaging and Applications

〉 Migrate Notes mail and archives to Exchange or Office 365

〉 Migrate Notes applications to SharePoint or Office 365

Manage User Adoption

〉 Supplement your help desk to support end-users through the transition

〉 Accelerate user adoption of Office 365

Migrate Notes Applications to SharePoint or Office 365

Application Modernization

Application Modernization creates a clear and realistic approach for legacy application transformation. You will save time and money—not to mention gaining a more efficient migration—by enabling all collaboration and communication applications to be evaluated and transformed, where applicable, to the new platform.

Relax and Leave the Migration to Us

Migration-as-a-Service

Migration-as-a-Service is a low-stress, full-service approach to migrations. You can stay focused on your core business while Binary Tree handles your migration from end to end. Binary Tree offers Migration-as-a-Service for any migrations that involve IBM/Lotus Notes/Domino, SharePoint, Exchange, and even Office 365.

Supplement Your Help Desk

End-User Services

Binary Tree End-User Services brings peace of mind to companies undergoing a technology migration or transformation by offering assistance to your end-users. With Binary End-User Services, you gain a help center for employees to call 24/7 with questions to guide them through new technology. These vital services enable companies to experience higher adoption rates and more productive employees.

Accelerate User Adoption with Office 365 Managed Services

Surround365™

Binary Tree's **Surround365** managed service unlocks the ROI from Office 365 with technical support, coaching, and training for your end-users and management, monitoring and reporting for your IT team.

"Binary Tree's software has been used to migrate millions of users from Lotus Notes to Microsoft Office 365 and has proven instrumental in the onboarding process."

– General Manager, Microsoft Office 365
