What's New in Version 18.12

Active Directory Pro 18.12 has been certified to work with Active Directory Domain and Forest Functional Level 2012 and supports new cumulative updates to SQL Server. A full list of changes for this release is presented below.

Going forward, the release version number now represents the year and month of the release (18.12). The last GA release of Active Directory Pro was 18.9 released in September 2018 and before that was 10.4 released in July 2018.

Release Notes 18.12

- Active Directory Pro has been certified to work with Active Directory Domain and Forest Functional Level 2012. (56390)
- The following cumulative updates are now supported:
 - Cumulative Update 13 for SQL Server 2014 SP2
 - Cumulative Update 3 for SQL Server 2016 SP2
 - Cumulative Update 11 for SQL Server 2017 (59349)
- The ReACL process now honors the “Invalid/Duplicate Target Profile Action” setting in the Device ReACL Profile when running the Cutover action on a Windows 10 device. (59474)
- An issue where Windows 10 Profile Cutover would fail due to a recent Windows 10 update (Windows 10 update 1709 from January 2018) has been resolved. (60499)
- An issue where changing the ReACL Folder Blacklist in the configuration user interface caused an improper ReACL value on the target has been resolved. (60577)
- An issue where an Admin Agent Action would not run on Computers or Users has been resolved. (61096)
- An issue with the Import Wave functionality when dealing with Devices has been resolved. (61845)

About Binary Tree

Binary Tree is a Microsoft Gold Partner for messaging, cloud productivity and application development and is dedicated to and focused on enterprise transformations to Microsoft platforms. Since 1993, Binary Tree has transformed more than 8,000 global clients and 42 million users, including 7.5 million users to Office 365. The company is a globally preferred vendor for Office 365. Its headquarters is located outside of New York City with global offices in France, Germany, Singapore, Sweden and the U.K. Its award-winning software and services help companies modernize email, directories and applications by moving and integrating them to the Microsoft cloud. The company's business-first approach helps plan, move and manage the transformation process from end to end so that clients can stay focused on their core businesses. Binary Tree's experts deliver low-risk, successful IT transformations. Visit www.binarytree.com for more information.
