## Known Limitations 1.4

- If a database has been added from the file system for migration, it cannot be removed from the pending list by the user. The database will be automatically added to subsequent migrations until it migrates successfully or with warnings. (39032)
- If a database was added to the migration queue from the local file system and completed successfully, be aware, it can be added and remigrated in subsequent migrations. (39033)
- The Archives to Process section of the Person document displays an incorrect byte count and total. (39846)
- The PowerShell Logging Path must use the default c:\logs path. (40150)
- The maximum attachment size is set to 90 MB. Attachments over 90 MB in size will be removed and a size limit exceeded message will be logged. (52051)

## About Binary Tree

Binary Tree is a Microsoft Gold Partner for messaging, cloud productivity and application development and is dedicated to and focused on enterprise transformations to Microsoft platforms. Since 1993, Binary Tree has transformed more than 8,000 global clients and 42 million users, including 7.5 million users to Office 365. The company is a globally preferred vendor for Office 365. Its headquarters is located outside of New York City with global offices in France, Germany, Singapore, Sweden and the U.K. Its award-winning software and services help companies modernize email, directories and applications by moving and integrating them to the Microsoft cloud. The company's business-first approach helps plan, move and manage the transformation process from end to end so that clients can stay focused on their core businesses. Binary Tree's experts deliver low-risk, successful IT transformations. Visit [www.binarytree.com](http://www.binarytree.com) for more information.
